Official Bulletin of Northwest Nazarene College

VOLUME IV.

NAMPA, IDAHO, AUGUST, 1917

NUMBER 2.

FACULTY AND STUDENTS

NORTHWEST NAZARENE COLLEGE—AN OPPORTUNITY

To mingle with young men and women who are deeply spiritual; to associate with those who have great purposes and high ideals; to study history, and science and philosophy under the illuminating power of revealed truth; to form habits of thought and life in the midst of holy environment, to catch the spirit of intense devotion and untiring service; but above all to make hosts of friends among those who are to be the future leaders of the church,—this is the opportunity which the Northwest Nazarene College offers to all its students.

NORTHWEST NAZARENE COLLEGE

Northwest Nazarene College situated at Nampa, Idaho, is a Christian institution which aims to provide educational advantages worthy of the young people of the church and in keeping with its high ideals of manhood and womanhood. The courses of instruction are arranged in harmony with the generally accepted standards; the latest and most approved methods of instruction are followed, and in all departments a high standard of educational efficiency is maintained. While under the supervision of the Pentecostal Church of the Nazarene, the institution is not narrowly sectarian but receives students of all denominations.

Northwest Nazarene College is the result of a great and pressing need. Thoughtful people realizing the great influence of the schools and colleges were reluctant in entrusting the education of their young people to worldly institutions whose teachings were such as to endanger Christian experience and undermine their faith in the Bible

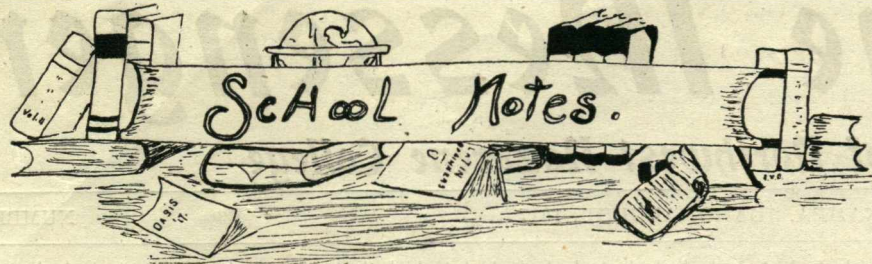

as the word of God. The emphasis upon development in biology, the evolutionary hypothesis in philosophy, the doctrine of man's sinfulness and depravity as a theological dogma no longer tenable, these and many others combined to weaken the faith of the student in the fundamental doctrines of grace and to minify the importance of a definite and conscious experience of salvation from sin.

The church is now face to face with the problem of the education of her young people. She will be able to perpetuate her high ideals, her faith in the authority of the Bible, her aggressiveness in evangelism and missionary effort, her intense loyalty to Jesus Christ, only as she holds their ideals constantly before the minds and hearts of the students in her schools and colleges.

What greater investment can one make than to invest money in the education of young men and women who are to devote their lives to the work of God. Give this matter your careful consideration.

UNIVERSITIES AND COLLEGES REPRESENTED IN THE FACULTY

The faculty this year numbers twenty members and the college professors are all university trained men and women. Prospective students will be glad to learn that twenty-five universities, colleges, conservatories and technical schools are represented in the faculty as follows: University of California, University of Chicago, University of Michigan, Harvard (Radcliffe College), Glasgow University, State Gymnasium (Assens, Denmark), University of Southern California, Pacific School of Religion, College of the Pacific, Penn College, Whitman College, Taylor University, Nazarene University, Central University, Oklahoma Holiness College, Kansan Holiness Institute, Bellingham Normal School, Idaho Technical Institute, Holiness Collegiate Institute, Hollman Business College, Potts' Business College, Missouri Wesleyan College, Cincinnati Conservatory of Music, Morningside Academy and Oregon State Normal School.

The students are taking hold of the building proposition with enthusiasm. Money is coming in from day to day and we now have sufficient funds on hand to put in the foundation and put up the frame work and we expect to have sufficient funds on hand by the opening of the semester to purchase the material necessary for the completion of the building. A number of students who could not otherwise give anything have offered to donate labor and in this way they can be given an opportunity. Some who could give but \$10.00 may in his way be able to give \$25.00 and others who could give nothing in money may be able to donate \$10.00 worth of labor.

The members of the faculty have each subscribed for one or more standard periodicals for the work of the several departments in addition to the regular college subscription list. This will furnish us with an excellent supply of current literature for the work of our higher departments. Others who desire to do so may greatly help us by subscribing for good periodicals for our reading room or by making us gifts of good books for our library.

Rev. E. G. Anderson, our General Missionary Secretary, is sending us ten copies of the Other Sheep monthly for our missionary reading room. We consider the Other Sheep one of the finest small missionary journals published and we greatly appreciate this favor. Mrs. E. G. Eaton is gathering together a missionary library and arranging also for a missionary exhibit. These things will be of great value to our missionary students.

Students for the ministry will have an opportunity to obtain practical experience in preaching at the regular weekly meetings for this purpose. These exercises will not be altogether critical but devotional as well. The "band meetings" in which a number of students take part are always of great value to those just beginning the work of the ministry and very helpful to the churches.

The missionary students hold meetings each week for intercessory prayer and for the study of missionary problems. The students keep directly in touch with the missionaries on the field and receive great inspiration and help from these meetings.

We are looking for a large increase in attendance this year. The prospects are that we shall have from 200 to 225 students registered in all departments. They are coming from Oregon, Washington, Montana, Idaho, Colorado, Arizona, the Dakotas, Canada and California.

We are looking for the greatest year of spiritual blessing which the college has ever known. We are determined to keep the mighty glory upon Northwest Nazarene College and to rest in nothing short of the continual manifestation of the divine presence. We are determined never to compromise with the devil nor to round off the corners for worldly approval. We love the

old rugged truth with its jagged edges and sharp corners,—the kind that brings sinners to the mourner's bench and believers to the altar of consecration. We are crucified unto the world and the world unto us,—we have no reputation to sustain with it, nothing to lose, nothing to gain. To be a friend to the world is to be an enemy of God. With a holy recklessness and a desperation born of the Spirit we have thrown ourselves into the fight against sin and worldliness, counting not our lives dear unto ourselves, determined that Christ shall be magnified in our bodies, whether by our lives or by our death.

JOHN FLETCHER—PRESIDENT

While John Fletcher was president of Trevecca College the institution glowed with spiritual life and revival power. Joseph Benson wrote of him, "Here it was that I saw, shall I say, an angel in human flesh? I shall not exceed the truth far if I say so."

His lectures were noted for their depth and fervor. The students hung upon his words and were soon melted in tears, every heart catching the fire that burned like a flame in the heart of their seraphic president.

At the close of the address it was his custom to say, "As many of you as are athirst for the fulness of the Spirit of God, follow me into my room." Then followed a season of prayer which lasted sometimes as long as two or three hours, followed by a mighty outpouring of the Holy Ghost.

NEW MEMBERS OF THE FACULTY

Professor Krag was educated in Europe and will make his courses in modern languages intensely interesting.

Professor Goodlander is an enthusiast in the classics and is offering some attractive courses in Greek and Latin. Students will find his courses in New Testament Greek of great value to them in their Bible studies.

Professor Swalm will have charge of the department of Education. Prof. Swalm has studied with a number of the leading educators and those preparing to teach will find his courses exceedingly helpful.

Miss Oliver M. Winchester who comes to take the department of Hebrew and Biblical Literature is without doubt one of the foremost critical and exegetical scholars in the holiness movement. A graduate of Harvard (Radcliffe College) she spent some time in Scotland taking her divinity degree from the University of Glasgow. The past year was spent in Berkley, California, in order to familiarize herself with the conditions of western college life. Here she took her master's degree in theology (S. T. M.) graduating with the highest honors in the institution.

Mrs. Nellie Goodlander will be a valuable addition to our Music Department. She is a graduate of the piano department of Mis-

souri Wesleyan College and Morningside Academy, is an excellent instructor, gifted as an orchestral director and in every way an accomplished artist.

Mrs. S. L. Flowers will this year begin her work in Art, offering courses in freehand drawing, china painting and magazine illustrating. Her courses in blackboard illustration will be especially helpful to Sunday school workers.

Professor Glenn G. Walker has charge of the Commercial Department and will also act as bursar and book-keeper. He will offer courses in book-keeping, typewriting and the common branches, and Miss Faith Scull an experienced reporter will offer the work in shorthand. Miss Scull will also teach stenotypy or the "machine way" of rapid writing if this is desired.

THE SPIRITUAL LIFE OF THE COLLEGE

We have caught a vision of the greater glory and can never again be satisfied with anything short of the continual manifestation of the divine presence. We want what Trevecca College had when the saintly Fletcher delivered those remarkable lectures on Christian perfection and spent hours in praying until the Shekinah glory fell and the mighty presence of the Holy Ghost was felt in sanctifying power.

We want what Oberlin College had when Finney, accustomed to open his classes with prayer sometimes forgot his students and prayed on through the hour while his students waited as in the presence of the Holy One and silently slipped away when the period closed, leaving their revered president still in rapt communion with God. Such an hour of heavenly uplift means more to students in its influence upon the life for good than days of grinding over musty books.

We can never get away from the memory of that glorious morning in Pasadena when the heavens seemed to open and the Holy Ghost fell upon every department of the college simultaneously; when a hundred students were sanctified in a single day and when over three hundred knelt at the altar in one week. The memory of these days is still fragrant and that week has exerted an untold influence for good upon hundreds of lives. We sometimes turn to the account in the revival number of the La Sierra and a breath of the heavenly aroma makes it live again, the heavens seem to echo the glorious refrain. "Oh the blessing and the power that the Lord gave me then," and we catch ourselves singing audibly, "I praise the Lord the fire still burns with Pentecostal flame; The altar of my heart's aglow, all glory to His name."

Thank God, Northwest Nazarene College throughout the entire past year was aglow with the divine glory. God gave us a gracious revival, hundreds knelt at the altar of prayer and the Shekinah glory seemed to hover just above us. We are not trusting in our location, buildings or equipment; we rest not in the scholarship of our faculty or the size of our student body; our hope is not in great men or great organizations,—these all have their place, but we seek the divine glory and the honor which comes from God only. Our faith is in God,—our hope is from Him.

A college education for \$4.00 per week or \$150.00 per year. This is the amount necessary for board, room and tuition in Northwest Nazarene College.

Send for catalogue and other information to H. Orton Wiley, President Northwest Nazarene College, Nampa, Idaho.

THE COLLEGE FINANCES

Northwest Nazarene College has made rapid strides financially since its organization four years ago, but now needs money in order to put up the buildings necessary for the proper accommodation of its rapidly growing student body. You can help us in one of the following ways:—

- (1) By making a donation to the building fund. We need \$4,500.00 for the Girls' Dormitory; \$3,000.00 for the Students' Club building and Music Hall, and \$2,500.00 for a Grammar School building.
- (2) By making us a loan. This will give us money for our present needs and give us time to make our payments. We can give good securities and 6 per cent interest. Read the explanation of our bond proposition on this page.
- (3) By subscribing for some good magazine and sending it to our reading room or giving us good books for our library. We need \$500.00 for a library fund.
- (4) By donating fruit, vegetables, meat, honey and other supplies to our Students Club. The churches are putting up 2,000 quarts of fruit for us. Others are furnishing apples, prunes, potatoes and other table necessities.

Address, H. ORTON WILEY, President, Nampa, Idaho

AN EXPLANATION OF THE BOND ISSUE

We have had a number of inquiries concerning the bond proposition and give the following brief explanation for the benefit of those who are unfamiliar with such matters. The plan was suggested by our auditor in order to give our people with small means an opportunity to help the cause of Christian education.

(1) The College has issued 830 bonds or first mortgage notes on its property, aggregating a total amount of \$40,000.00 in order to raise money for needed buildings and equipment.

(2) These bonds are at present secured by over \$60,000.00 worth of property and pay 6 per cent interest to those who hold them. When the money received from the sale of these bonds is reinvested in buildings the \$40,000.00 bonds will be secured by \$80,000.00 worth of property.

(3) We want to place these bonds with our own people as far as possible and have therefore issued a large number of the smaller denominations in order to give every one an opportunity to help in this worthy cause. You can invest from \$10.00 to \$1,000.00 or more.

(4) We are just now giving special attention to the sale of the smaller bonds. We want to sell within the next few weeks if possible, 100 of our \$25.00 bonds and 250 of our \$10.00 bonds in order to raise an additional \$5,000.00 for our new buildings.

Do not hesitate to buy a bond because the amount you have to invest is small. Be one of a hundred to buy a \$25.00 bond, or one of two hundred and fifty to buy the smaller \$10.00 bonds and help us raise this \$5,000.00 for the new buildings.

Statement of Assets and Liabilities

For the benefit of those desiring to invest in the larger denominations of our bonds we give the following statement of our assets and liabilities taken from the auditor's report of October, 1916,—Mr. DeLance Wallace, Auditor.

Total Assets	\$61,892.76
Total Liabilities	\$26,194.75...
Surplus	\$35,698.01

The Bond Denominations

10 bonds—\$1,000.00 each	\$10,000.00
20 bonds— 500.00 each	\$10,000.00
100 bonds— 100.00 each	\$10,000.00
200 bonds— 25.00 each	\$5,000.00
500 bonds— 10.00 each	\$5,000.00
830 bonds	\$40,000.00

THE STUDENTS' CLUB

The students have boarded themselves on the club plan for the past three years and have made a remarkable success of the undertaking. Last year under the efficient management of Mrs. Hodgin, meals were served at a cost of less than 7 cents per meal or \$6.30 per month. This was the occasion of much favorable comment both at

the Northwest District Assembly and at the Idaho-Oregon Assembly. By means of this plan students are able to secure an education in a Christian college at the remarkably low cost of \$4.00 per week,— this amount paying for board, room and tuition.

OUR FINANCIAL PLAN

The matter of finances is always a serious question in any new educational institution and in these times of uncertainty and unrest financial problems are peculiarly perplexing. The history of colleges reveals the fact also, that the drift away from spiritual ideals usually begins in the financial department. In times of great financial stress money easily comes to be regarded as the supremely important thing, and under pressure sacrifices are made or positions of compromise taken which sooner or later lead away from spiritual things. Satan still has his high mountains to which he carries the servants of God to show them the resources of this world; he still offers much to those who will accept his methods and follow his plans; but alas, if accepted, the glittering prospects only serve to blind the eyes and dispel the glory.

For some time the conviction has borne in upon us that God had a better way,— that the ordinary way in which colleges are financed is not the true scriptural plan and that the dire results to spirituality follow as a necessary consequence. We believe that God would have us rely upon Him entirely for the financial support of the institution, trusting His Spirit to influence the minds and hearts of the people and to supply the needs as He may see best for the spiritual development of his children, the best interests of the college and his own greatest glory. We believe that by this means spiritually will be conserved and many precious lessons in faith learned, but especially that the glory of all our success will be seen by the people to belong to God who alone can make our way prosperous.

We believe further, that God would have us keep the people informed as to our true financial status and shall therefore, from time to time publish a simple statement of our needs in order that God's children who desire a part in this great work may be given the privilege to which they are entitled as stewards of God. We believe that God will in a short time give us a constituency of holy men and women who know how to pray the prayer of faith, and who will consider no sacrifice of time or strength or money too great to lay at the altar of God for the furtherance of this most worthy calling, the Christian education of young men and women.

A REMARKABLE PROVIDENCE

Since taking the above position God has visited us with a remarkable providence as if to encourage our faith and give us a gracious token of His favor. A gentleman of

considerable means three weeks ago visited the Ontario church and was converted under the ministry of the pastor, Rev. E. L. Perry. The following Sunday he visited the Nampa church and was greatly blessed by the thrill of life and spirituality which always characterizes a true Nazarene meeting. Having learned something of our college work, he invited the president to visit him after the service in Ontario last Sunday evening and suggested that perhaps an industrial farm in conjunction with our college might be of great assistance to our students who desired to earn their expenses while in college. The result was, that the brother visited the college the next day and made an offer to the president of our Board of Directors to advance the money for any property which he should select, furnish the necessary buildings, stock and equipment for intensified farming and dairying to the amount of \$10,000.00 if we cared to consider the proposition. To the Board of Directors who had given much time to the consideration of the plan, this offer seemed to come as a direct answer to prayer and was gratefully accepted. We desire to publicly thank this brother for his great kindness and to praise God for this token of His favor.

THE STUDENTS' CLUB BUILDING

The increased membership in the club makes it necessary to have larger quarters. The present dining room is entirely too small. The students have undertaken to put up a new STUDENTS' CLUB BUILDING with rooms for the use of the Music Department temporarily. Their plan is to raise \$1,500.00 by securing the names of forty of their number who will give \$25.00 each and an additional fifty who will give \$10.00 each. If sufficient money comes in to pay the material bill, the foundation and frame work can be ready by the opening of the semester and this will give many students an opportunity to work on the building and contribute something who otherwise could not help. Several have inquired about this who are anxious to do their part and yet are not able to give anything in money.

If some person could advance the money for the material bill it would be a great encouragement to the students and to the college. The amount necessary will be about \$2,500.00 of which amount \$500.00 has already been subscribed and the college can give excellent securities for the amount of \$1,500.00. If this could be done the students would have their new building ready in about three weeks after the opening of the semester and give many of them an opportunity to pay their subscription in monthly installments.

Students arriving in Nampa should call up Mr. Emerson at 460 for information. He has kindly promised to give any assistance needed.

NORTHWEST NAZARENE COLLEGE

Nampa, Idaho

To Prospective Students:—

- Northwest Nazarene College extends a hearty welcome to young men and women who are in earnest to secure a Christian education and who desire especially to include thorough and constructive Biblical work in a course leading to the degree of Bachelor of Arts.
- You will find things outwardly plain and unpretentious, but the spiritual blessings will be "exceedingly abundant" and the very atmosphere will be freighted with divine glory.
- You will find a faculty of scholarly men and women who know how to pray as well as teach and who give themselves to their work with untiring devotion.
- You will find a student body of deeply spiritual young men and women who have the call of God upon them and who in obedience to the heavenly vision are preparing for their life mission.
- You will find a wide range of courses, thorough scholarship and the latest approved methods of instruction. You will have opportunity for prayer, meditation and practical work.
- You will learn many things outside of text books and lectures,—lessons in intercessory prayer, in reliance upon God for temporal supplies, in bearing the burdens of spiritual work, in dealing with souls at the altar of prayer, in conducting religious services, in patience and faith.
- You will enjoy the association with the faculty and student body, you will learn the "give and take" of life so essential to those who would labor together for the larger interests of the kingdom, and will in after years reap as a rich heritage, a thousand fond memories and tender ties when those with whom you have been associated shall occupy positions of responsibility and trust in the churches throughout the world.
- If these things appeal to you, we invite you to join our college circle, believing that all who do so will find the work pleasant as well as profitable.

A PRAYER FOR THE COLLEGE

Lord send us the glory! Let it roll over us like mighty billows, let the heavens bend low and the mountains flow down at thy presence, and let the very atmosphere be charged with the heavenly aroma. Let it break up all formality and lip service, let it spoil our niceness and false respectability, humble our pride, ruin our reputation with the world and worldlings, burst forth in shouts of holy joy, ripple over us in holy laughter, break out in fiery exhortation and send us to our knees in agonizing prayer,—yes Lord if a hundred pray at once and pray for an hour. Let it shine forth with such brightness as to send pharisees to their knees in the dusty highways and unhorse sinners in the middle of the big road. Let it spoil laziness around the altar and set sinners to praying and fasting; let it cure superficial daubing with untempered mortar and give courage to put in the probe until all sin is surrendered. Let it reveal carnality and crucify it, let it stir up the devil and cast him out. This is our prayer,—this we must have. We cannot live without it. Regardless of consequences and with holy recklessness we still pray, Lord send us the glory!

GIRLS' GLEE CLUB

Entering College a Patriotic Duty

Commissioner of Education, Dr. E. A. Bryan, is asking that special effort be made to fill up the gaps in the colleges and universities made by the war. He says, "It is assumed as a matter of course everywhere that there will be a decrease in the number of university and high school students. Instead of this there should be an actual increase. The young man before went for his own sake; now he should go for the nation's sake. More young women, likewise, should prepare to fill the vacancies which will occur in increasing measure by reason of the absence of the young men."

The state department of education of Idaho suggests an education campaign and urges "all presidents and faculties of our higher institutions and all county and city superintendents and high school faculties at once to put forth every effort to mold public sentiment in their respective communities and throughout the state and to direct the minds of the more mature youth to the duty and opportunity of fitting themselves for service to their country by attendance upon the high schools and the higher institutions during the coming year. Personal sacrifice and family sacrifice should be made to accomplish this end."

NAMPA NOW HAS BUSINESS COLLEGE

Northwest Nazarene College has this year added a Commercial Department with complete courses in book-keeping, commercial law, rapid calculation and business correspondence. Two courses offered:—

- (1) Book-keeping and Typewriting course.
- (2) Shorthand and Typewriting course.

Synopsis of Courses

Book-keeping.—The Metropolitan System. Latest system in modern book-keeping,—includes practical work in Wholesale, Commission, Manufacturing and Corporation Accounting.

Shorthand.—Not a new and untried system, but the standard,—"Gregg." Used in the majority of schools in the United States.

Typewriting. "The touch system" with practice on different standard machines,—not a one machine proposition. Stenophy,—"the machine way" taught if desired.

Common Branches. Business Arithmetic, Rapid Calculation, Commercial Law, Spelling, Correspondence and Advertising taught in a way which interests the student and gets results.
