

Junior High School

For some time it has been thought advisable to organize a Junior High School. This has been done and Prof. Isgrigg has been elected as principal. The Junior High School will consist of grades seven, eight and the Freshman year of the ordinary four-year High School. There are several advantages to be derived from this organization. Heretofore the Academy Freshmen have been almost lost in the crowd so that it was impossible to give them the individual supervision which they need. The Junior High School will have special Chapel services and thus it will be possible to do more efficient work with the students along spiritual lines. The Junior High School will also have its own literary societies and athletics. The tuition fee has been set at \$25 a semester, which is \$20 less than the tuition fee charged for the High School student. If you are interested for further particulars, we shall be glad to furnish you with any information you desire upon your request.

Normal School

Northwest Nazarene College offers two-year and four-year normal courses. In addition to the theory and class work offered, the institution maintains a training school in connection with our Grammar Department whereby the Normal School students are able to gain actual experience in teaching. This is a great advantage and one that is not offered by many colleges. Although our organization for the coming year will be revamped somewhat, it will not in any way affect our Teachers' Training Department.

During the past few years Prof. Coral O. Young has been the head of our Training Department and we regret that she found it impossible to accept her nomination and election for the coming year.

Although we regret this necessity for a change in the Department of Education, yet we are delighted to announce that we have secured a person who is said to be, by both a General Superintendent and one of our College presidents, one of the outstanding teachers of the Church in the personage of Prof. May E. Bower. Prof. Bower is one of the most highly trained individuals in our denomination, having received her Master of Arts degree from the University of Southern California and since that time having pursued graduate study for several semesters. Prof. Bower has had wide experience as a teacher, having taught in the public schools for 18 years; in the Christian Workers' Training School, Huntington Park, 1910; at the Nazarene University, 1913-22; and at Pasadena College, 1925-27. Prof. Bower also has traveled widely, having recently spent two years in educational work in India.

Notes

Several of our young men are now working in the wheat harvest near Connell, Washington.

President DeLong, Business Manager Henson, Prof. Gretzinger and the Male Quartet were present at the Rocky Mountain District Assembly which was held recently at Billings, Montana. Educational rallies were held Friday and Sunday afternoons. Several old students were present and also many prospective students. Rev. W. D. Shelor was re-elected as a member of the Board of Directors of Northwest Nazarene College. Rev. Roy Swim, who is a graduate of our institution, was elected District Secretary.

On the morning of July 4 President DeLong addressed the North Dakota District Young People's Convention at Sawyer, North Dakota, on the subject of "Pervasive Influences and Golden Opportunities." The North Dakota District Campmeeting and Assembly were held at Sawyer, North Dakota, July 4 to 14. The special workers were Dr. J. W. Goodwin, Rev. Lewis E. Hall, President DeLong, Prof. Gretzinger and the College Male Quartet. A wonderful spirit permeated the camp grounds. The altars were filled many times and scores of people found God in saving and sanctifying power.

North Dakota District has made remarkable progress during the past year under the superintendency of Rev. Harold J. Hart, who is a graduate of Northwest Nazarene College. It was reported that both the district and general budgets were paid in full for the year. Brother Hart was re-elected as District Superintendent by unanimous vote.

During the Camp Meeting and Assembly many old N. N. C. students were present and also scores of young people who anticipate enrolling at N. N. C. in the future. Last year there were forty students from North Dakota and we hope that the number will be increased to at least sixty this coming year.

George Taylorson is in Canada this summer working in his old position on the railroad. He reports that there will be several new students from that section this year.

Miss Hattie E. Goodrich is pursuing work at the University in Washington, D. C. Through an oversight her name was not included in the faculty list in some of the recent advertising. She will be on hand, however, and the Commercial Department will be stronger than heretofore.

Prof. Dooley has returned to Nampa, having finished her work for the Master of Arts degree at the University of Washington.

The Young People's Conference of the Christian Church was held on the campus of Northwest Nazarene College, July 17, 18, and 19.

If you are interested in our Normal School work, we would be pleased to furnish you with any information you desire.

Better Than Ever

Hundreds are interested and many have asked, "What are the prospects for the coming year from a student standpoint?" We have replied, "Better than ever."

We have reached this conclusion from the following facts:

1. Nearly 1500 names are on our prospective student file.

2. Great increase in requests for our new catalog over preceding years.

3. Correspondence much heavier than usual at this point in the summer.

4. Encouraging reports from Prof. Gretzinger and the College Male Quartet.

5. It is apparent from correspondence and reports that a greater percentage of old students are returning than is usual.

6. More rooms are actually reserved in the dormitories than at this time a year ago.

7. Our pastors over the Zone almost to a man are acting as our personal representatives and are boosting and encouraging their young people to attend our own institution.

8. Many of our old students are working for scholarships which are granted as follows: tuition for the year given for securing four new students, and tuition for one semester for securing three new students.

9. Many are planning to take advantage of the flat rate proposition, i. e. tuition, board and room granted for the entire year for \$250 if paid in cash in advance.

You have put off the matter of preparing for your life's work for several years. The days of golden opportunity are rapidly passing. Why not JAR LOOSE from your present environment and start preparing for your life's work and enroll September 23?

Student Employment Bureau

If you are in need of work to assist with your expenses we feel that the Student Employment Bureau can assist you. Especially is it true that we can help young ladies to secure work for board and room and, in some cases, cash. One young lady has already secured a position where she will earn her board and room and \$25 per month in cash.

School of Music

The School of Music which was organized last year, made a good record, enrolling approximately 125 for the various courses offered. During the coming year Prof. Harold W. Gretzinger will continue as Dean.

We have secured the services of Prof. Albert J. Tompkins as teacher of violin. Prof. Tompkins is the Music Supervisor of the Boise Public Schools. He comes to us well recommended and well trained, having studied violin at the Hahn School of Music, Philadelphia; piano with Charles Hoebler of Philadelphia; harmony and theory with Arthur Edward Johnstone of Cornell University; and music history, appreciation, brass and reed instruments, at the University of California.
