## Board of Regents Report

*Session held at Nampa, Idaho  
March 8 and 9, 1933*

The Board of Regents, in their meeting, found all departments of Northwest Nazarene College in fine shape despite the unusual pressure of these days. The enrollment of the College Department is well up to that of last year at this time, and in other departments compares favorably. Despite the unusually stringent financial conditions, the college is operating its current expenses on a cash basis. The splendid spirit of unity, loyalty, and courageous sacrifice on the part of the faculty occasioned the deep appreciation of the members of the Board. This same spirit is naturally reflected in the student body. The Regents were decided in their hopeful outlook for the future of our institution in the Northwest.

After a successful administration covering several years, Rev. Russell V. DeLong tendered his resignation as President of Northwest Nazarene College. During his term of office the school was saved from threatened failure; it made a splendid growth in enrollment and gained a wider influence throughout the Northwest. During this time also the equipment of the institution was greatly improved by the construction of the Administration Building, and the addition of the College Gymnasium. President DeLong has merited the deep appreciation of the Board of Regents and of his many friends in the Northwest, and goes with their good wishes.

Acting President R. E. Gilmore, who

has been at the helm of the school this past year, and has carried us through so successfully in this very, very trying year of financial pressure and the consequent testing of our moral strength, was unanimously elected to fill the office of the Presidency of the College for a term of four years. Dr. Gilmore has already endeared himself not only to the Faculty, Board of Regents and Directors, but has been enthusiastically received and supported by the members of the Northwest Educational Zone.

It should also be mentioned that the Faculty have loyally stood by Dr. Gilmore this year and are with him as we face the future of the school. A fine line-up has been arranged for the new school year, and every preparation is being made for the school year of 1933-34. There is no doubt that the outlook for Northwest Nazarene College was never brighter.

*Secretary, Board of Regents*

**ATTENTION ALUMNI!!** The date for the annual meeting of the Alumni Association has been changed from May 29 to May 8. "See you in Nampa for Commencement".

Dr. Gilmore recently spent several days in Spokane, Washington representing the College at the Inland Empire Education meeting.

We have just closed a very precious revival with Rev. Jarrette and Dell Aycock. Truly God was good in sending us these fine evangelists. Look for a full account of the revival in the next issue.

## Special Notice

Those who desire our Male Quartet to visit them this summer should get in touch with your District Superintendent at once as the schedule for the tour is now being arranged.

## Education from a Financial Viewpoint

For the benefit of those who view an education from a financial standpoint we give the following, taken from one of the Boise daily papers—the Evening Capitol News.

“If you finish high school you will add \$20,000 to your life income and if you will go through college you will add \$68,000. At least this is the conclusion reached after a study of government statistics. It pays to get a higher education, if that is at all possible.

“Uneducated laborers earn an average of \$500 per year for forty years or a total of \$20,000 for their life. High School graduates earn an average of \$1,000 a year for

forty years, or \$40,000. College graduates earn an average of \$2,200 per year for forty years, or \$88,000.

“Ordinary education requires about twelve years in school, or 2,160 days. So if 2,160 days and \$20,000 to one's life income, then each day adds \$9.25. Any child who withdraws from school to work at less than \$9.25 per day is losing money.

“It has been determined that each day in high school is worth \$25 to the pupil. Every day in college is worth \$55.55. Education pays. It is valuable not only from the standpoint of dollars and cents, but the cultural training in itself is more than worthy of the effort.”
