

# OFFICIAL '56 ENROLLMENT HITS 700

## CLASSES MEET; ELECT OFFICERS

Class meetings were held Friday, September 21, to elect new officers. The officers elected are as follows:

### Seniors

President—Paul Freeberg  
Vice President—Bob Willard  
Secretary—Lora Jane DeLashmutt  
Treasurer—Roy Haris  
Student Council Representative—  
Jim Martin

### Juniors

President—Ron Kratzer  
Vice President—Cecil Campbell  
Secretary—Virginia Horne  
Treasurer—Duane Peppley  
Student Council Representative—  
Vi Jahn

### Sophomores

President—Alan Rhodda  
Vice President—George Zickefoose  
Secretary—Peggy Wood  
Treasurer—Kitty White  
Student Council Representative—  
Wilson Barber

### Freshman

President—David Rodriguez  
Vice President—Larry Hull  
Secretary—Sally Whitcanack  
Student Council Representative—  
Jerry Hull

## Study Of Campus Made By Council

NNC students were honored to have luncheon with members of the newly-formed college development council during their visit to the campus last week.

Mr. Thomas Leupp, dean of students, acted as host for the council.

Members of the development council made an extensive tour of the campus Wednesday afternoon under the leadership of Mr. L. W. Johnson. Later they met with the members of the faculty in a discussion of college needs as seen by the faculty. Dean Thelma B. Culver presided over this session.

The development council is now in a period of exploration. The aim of the group is to study the situation of NNC from all possible viewpoints before formulating any plans for future development.

The council is composed of a number of business men, pastors and former NNC students. Dr. Culver and Dr. Aller are faculty representatives on the council. NNC students are represented by Deb Laws, ASB prexy.

# NNC CRUSADER

Vol. XVI — No. 1

NORTHWEST NAZARENE COLLEGE

Monday, September 24

Buckaroo Breakfast for new NNC students and instructors served more hungry western collegians than ever at 7:15 a. m. Friday at Kurtz Park. The Nampa Chamber of Commerce sponsors the annual affair. Serving staples in the picture above are (from left) volunteer cooks Kenneth Egbert, Glen Reed and Ray Patterson. In the grub line (from left) are Mel Olsen, a freshman from Eugene, Ore.; Norma Humphrey, Moses Lake, Wash., and Bill Cummings of Salem, Oregon.

## Five New Faculty Members Join NNC's Teaching Staff

Five new faculty members have joined the NNC staff for the coming year. In addition to the new members, Miss Dorothy Long, head of the art department, is returning after a year spent in graduate work.

Marvin E. Byers of Laramie, Wyoming, will be the new head of the department of business. Mr. Byers holds a masters degree and has taught at the University of Wyoming for the past eight years.

Joining the NNC faculty as assistant librarian is Miss Edith Lancaster of Nashville, Tennessee. Miss Lancaster has her masters degree in library science from George Peabody College in Nashville.

Coming to teach German and

French is Miss Juanita Demmer of Grants Pass, Oregon. She has a master's degree in both German and French.

Loring Beals, a 1953 graduate, will teach science this year replacing John W. Dix, who is on leave of absence. Mr. Beals has spent two years in graduate biological studies at Northwestern University.

Mrs. Hays Johnson of Nampa will be giving part time instruction in home economics. She is a graduate of John Fletcher College and has done graduate work at the University of Minnesota.

The person who makes a dream come true hasn't been asleep.

## Introducing Your ASB Officers

Elected as ASB President for this year is Deb Laws. Laws, a senior, comes from Kelso, Washington. A loyal LSP, Deb is a religion education major.

Assisting Laws is Bill Jackson, ASB Vice President. Bill, also a senior, is from Nampa and a secondary education major.

Acting as ASB secretary is Mary Wing from Aumsville, Oregon. Mary, an LSP, is a senior elementary education major.

Clayton Martin, a senior from Portland, Oregon, is serving as treasurer this year.

Nampan, Shirley Tindall, is editing the 1956-57 Oasis.

Junior business major, Roxie Hull, is serving as Crusader editor. Elected as K.R.O.K. manager for

The enrollment of all departments for the fall semester at NNC is 700. This is the official report coming from the Registrar's office at 11 A. M. on Wednesday, September 19, 1956.

As usual, our interest turns mainly to the freshmen. 107 men are listed, and 111 women, making this a total of 217 new freshmen. Last year's freshmen totalled 188.

The most recent figures released are as follows:

1956-57	
Freshmen:	
Men .....	106
Women .....	111
217	
Advanced:	
Men .....	144
Women .....	129
273	

College High School enrollment is 169. Part-time students are 51. This brings the final total of all departments to 700. Last year's total was 674. This makes an increase of approximately 30 students more than last year.

All dormitories are full. The book store is putting out a special rush order, and the dining hall is overflowing. Everything points to a good year.

We have many new scholarship and outstanding students, among them, Sandra Coombs, Kathy Purchell, Jim Hilliard, Roger Burkhart, and many, many others. This year added more new students from foreign countries. Some have come to NNC with the same spirit of enthusiasm that brought Glennia Hoffman, who saved \$100 in nickles for her education.

## Circle K Delegates Attend Convention

Jim Ridgeway, Tom Ness, and Lloyd Bellamy represented NNC chapter of Circle K at the first official Circle K International Convention held in Philadelphia, September 5 through September 8.

NNC chapter president Jim Ridgeway was honored by being elected to the position of trustee on the International Circle K Board.

The three convention delegates spoke Wednesday, September 19, at the regular meeting of the Nampa Kiwanis.

this year is Carrol McIntosh. McIntosh, a senior, comes from Boulder, Wyoming.

Rounding out the group of officers is Sergeant-at-Arms Allen Lair. Allen, who comes from Boise, is a senior at College High School.

## OPERATION OR COOPERATION

By BILL JACKSON

There is a difference between operation and cooperation. We must have cooperation to have successful operation; but, we do not need operators to take the place of cooperators. The little tale is told of the young man, having been married only a short time, who went down to purchase a pair of slacks. He brought his new slacks home to his young wife and asked, "dear, my pants need shortening about four inches and a cuff placed on them, would you do it for me?" Her reply was that she was still young and didn't know how to tailor pants yet, and referred him to her mother. The young man presented his problem of shortening his pants four inches to his mother-in-law, but she excused herself by saying that she was much too busy. The young fellow's only alternative left now was to go to his own mother for help. She bluntly said, "Son, you are on your own now. Work it out the best that you can. I am too involved in other things."

The story does not end here, for we have seen neither operation on the pants, nor cooperation from his friends. The truth of the matter is that the mother felt bad after her son had left, and decided to fix the pants for him, so she cut off four inches. Later in the afternoon, the mother-in-law realized that her daughter had a responsibility that she could not fulfill, so she went to the closet, got her son-in-law's pants, cut them off four inches, and put a new cuff on them. That night, the young wife thought it would be very thoughtful of her if she would at least try to fix her young husband's pants. She then cut off six inches instead of four, and replaced the cuff. The next morning when the young fellow stepped in his new pants, he found that he had a new cuff, but that they were ten inches too short.

We must not have individual operation nor misguided cooperation, but we must work together and cooperate together to have a "perfect fitting" year of activities.

## Fisher Named Head Of Food Department

Herman A. Fisher of Astoria, Oregon, has been appointed as food service director for NNC.

Fisher has had extensive experience in food service areas. He has supervised dining facilities for many large denominational gatherings. He also served as dietician at NNC from 1946-48.

The Crusader staff would like to thank Nadine Seward for the design of our new nameplate.

Let others cheer the winning man,  
There's one I hold worth while;  
'Tis he who does the best he can,  
Then loses with a smile.  
Beaten he is, but not to stay  
Down with the rank and file;  
That man will win some other day,  
Who loses with smile.

—Unknown.

## DR. FORD DEDICATES HIMSELF TO TEACHING NEW COURSE

By ED BAKER

"There is more to life than money."

It is a manhandled expression among average Americans today that money isn't everything. Much, much rarer is the man who can live such a philosophy the way NNC Physics and Chemistry Professor Gilbert Ford lives it.

Dr. Ford, a blue-eyed crewcut blonde who stands well over six feet, looks more like the center on a collegiate basketball squad than the product of its graduate school of nuclear physics.

Although he possesses a salesman's smile, the only commodity Professor Ford is pushing right now is a new NNC curriculum in nuclear science. Chemistry instructor at the college for seven years Dr. Ford plans to devote his class time this year to applied electronics and nucleonics courses. Dr. Ford hopes to build this department into a major spark plug in the college's technical education program.

### Prefers NNC

In preference to a research position or employment with an engineering firm, Dr. Ford prefers teaching science courses at NNC. A graduate of the University of Colorado and holder of a Ph. D. degree from Harvard, Dr. Ford is fully qualified to handle higher paying technical positions, yet he plans to devote his career to education and the administration of the new applied nucleonics program.

His reasons?

"I'm interested in the college," Dr. Ford said. "I suppose it is a sense of loyalty."

After a moment's thought he added, "Don't think that my motives are entirely altruistic, because I enjoy my work—I like it here."

Among the ties that keep Dr. Ford, who is married and the father of a four-year-old daughter, in Nampa is his small farm on the outskirts of the city. There the nuclear physicist of the school term becomes Gilbert Ford, strawberry grower, during the summer season.

On the academic side, one of Dr. Ford's department improvements for the next year includes a small research project in the field of nuclear physics.

### Nuclear Power

He is vitally interested in the possibility of nuclear power for peacetime, constructive uses.

"At present it is a matter of economics," Dr. Ford said, "power from nuclear sources cannot yet

compete with coal, water and electricity commercially except in areas where these ordinary resources are not available."

However, Dr. Ford sees the atom as a future energy source of great value. Already, he added, reactors designed to provide industry with electric power are under construction as a proving ground and for engineering experience in new fields.

The technical and research aspects of such projects have greatly increased the demand for trained scientific personnel. Dr. Ford said, and that is one of the reasons he is instigating the new physics program at NNC.

### Aim of Program

Dr. Ford has devised a curriculum within his department of Natural Science and Mathematics which includes courses as varied as German and Microwave Electronics. The aim of the program will be to supply the graduate with a degree in "Engineering Physics" a relatively new type of major that deals in applied electronics and nucleonics.

Dr. Ford has patterned the program after similar engineering curricula at Ohio State College and the University of Colorado.

Armed with such a major, the graduate can engage in any number of projects at the forefront of scientific development, Dr. Ford added.

His program Dr. Ford admits, is "pretty rough"—but offers almost unlimited advancement.

To determine whether industrial companies would be interested in the unique program, Dr. Ford sent a letter and questionnaire to 15 national scientific corporations requesting their opinion on the "engineering physics" type of major. He also asked the companies to indicate the number of job opportunities available for graduates trained under the NNC program. The results were encouraging to say the least.

### 14 Enthusiastic

Only one of the companies responded negatively. The other 14 were enthusiastic about Dr. Ford's engineering physics concept and listed opportunities ranging from "good" to "excellent". Average initial salary mentioned by the concerns answering the questionnaires was over \$5,000 per year.

In addition, the organizations estimated salaries of engineering physics graduates of average ability and initiative after five years

Dr. Ford

experience at just under \$7,300 a year.

Higher salaries were listed for men with M. A. or Ph. D. degrees.

"Technical opportunities are growing," Dr. Ford said, "most of the companies expected more job openings in the near future."

Some of the industrial giants even indicated that they preferred a small college graduate over one from a large university.

### Let It Grow

When asked whether he would attempt to stimulate growth in the science department at NNC, Dr. Ford smiled.

"I'll let it grow if it wants to grow," he said. "But our aim is to combine the advantages of a technical education with those of a liberal arts education."

In a small school like NNC, Dr. Ford said, five or six graduates a year would make the program economically feasible.

At the close of the interview Dr. Ford was bombarded with questions again about his own refusal to accept higher-paying positions. He admitted finally that he had received job offers from commercial concerns in other locales that topped his salary as an educator.

He shifted uncomfortably in the chair for a moment and then answered briefly, "There is more to life than money."

## MACY CLEANERS & TAILORS

Men's and Women's Made-To-Measure Clothes

16 Wall Street

Nampa, Idaho

A familiar spot to NNC students is our President's home. Here members of faculty and student body enjoy the hospitality of a home away from home. The freshmen students enjoyed a patio supper at the President's home last week.

### INSIDE STORY ON ADVERTISING

One of the vital parts of student life on a college campus is the school paper. As most of you realize the school paper cannot exist without a certain amount of advertising.

Many merchants feel that advertising in a paper of this type is often useless as most people probably won't heed the ads anyhow.

What about it NNC'ers—let's let our advertisers know that we are reading their ads and let's tell them so. You can help to make the Crusader a better paper this year by patronizing our advertisers.

### RIDGEWAY APPOINTED BUSINESS MANAGER

Jim Ridgeway, senior from Roseburg, Oregon, has been named business manager of the Crusader for this year. Working with him as assistant manager will be Tom Kegley, sophomore from Nampa.

Ridgeway, a speech major, has been very active during his college career. He has made an outstanding record in forensics. During his sophomore year he was president of CWB and led that group to an all-time high in achievement. Last year he was one of the finalists in the race for ASB president.

He is president of Circle K this year he holds an office in the Circle K international organization.

### Looking Back . . .

Six Years Ago . . .

A.S.B. fee of \$8.00 must be paid before being cleared by the business office, according to ASB treasurer, Paul Kunkel.

Seven new instructors have been added to the college faculty. New ones are Hays Johnson, Leslie Parrot, Gilbert C. Ford, Elwood Sanner, Warren Franklin, Mrs. Florence Aller and Edith Anderson.

Keys to the Kampus was completely revised under the direction of Pauline Rinehart and Paul Kunkel.

Twelve Years Ago . . .

Coming to us from Toronto, Canada, is the Reverend John E. Riley, who has accepted the pastorate of the College Church.

Dr. D. Shelby Corlett will be the speaker at the annual fall revival to be held in the college chapel October 13-22.

### TROJAN TALK

By MARY ELLEN EVERIST

The total beginning enrollment of College High this year is 169. This number shows a decrease of seven compared to last year's record of 176.

In keeping the tradition of the past several years, the annual "get-acquainted" party was held last Friday. Members of the Student Body rode on hay wagons to the upper dam of Lake Lowell, where a huge camp fire was blazing. After playing a few games, the group roasted marshmallows and enjoyed a short talent program. Class presidents were introduced and they in turn introduced their individual class officers.

Four groups of cheerleaders were on hand for tryouts at the first football game of the season. These girls tried out in groups of three. The final result of the balloting put Rose Mary Markle, Pat Hardcastle and Carolyn Eby in the spotlight.

While looking over the "new flock" of college freshmen, I counted twenty-two College High '56 graduates. It is interesting to note that this number comprises 2/3 of last year's senior class.

BOB HUGHES—Don't let outside activities crowd your studies out. MARVA LUND—Keep up on your work—don't wait until the last minute.

Use what talents you possess; the woods would be very silent if no birds sang there except those who sang the best.

**Inquiring REPORTER**—What one thing would you advise freshmen to do to get off to a good start in their college career?

VIOLET JAHN—Schedule time so that they have time for studies, recreation, and most important, devotions.

DAVE MITCHELL—Take it easy—but don't take it too easy.

WILLIE BARBER—Study and make a time budget.

DAN MARTIN—Always keep up both academically and socially.

WALLY JOHNSON—Count your upper division credits and don't come up two hours short.

ROSEMARY AMAN—Should budget their time and not try to participate in every activity on the campus.

DUANE PEPPLEY—Remember—you're only freshmen—take criticism with a grain of salt and try to like it.

### MARRIAGES AND ENGAGEMENTS ARE SUMMER FAD ON CAMPUS

By NOEL RILEY

During the summer months the NNC marriage mill has by no means been idle. Several present, as well as former students, clamped on the "ball and chain" of married life.

Bill Jackson, ASB vice president, and Marilyn Samp started the marriage fad with a June wedding here in College Church.

Among the graduates married this summer include Emma Lou Bell and Dirk Dirksen; Martha Marie Johnson and Paul Anderson; Thirl Lilly and Bob Harmon; Donna Murray and Doyle Mitchell; Nettie Jensen and Gene Hansen; Rhoda Klohn and Archie Davies.

The month of August featured a double wedding for sisters. Married

in Emmett were Carol Hankins and Bob Burkhart, Graduates in '56 and '55 respectively, and Kathleen Hankins and Duane Olson. Mr. Olson was Crusader editor last year.

Last week at Lewiston, Idaho, wedding bells rang for Ronnie Jo Yount and Mac DeWater.

Others entering the matrimonial realm this summer were: Lois Norton and Don Oleson; Mary Lou Oldenkamp and Hubert Kinnamon; Joan Hamilton and Don Hartwig; Carol Russell and James Bowers; Betty Hoyt and Roy Breshears; Marilyn Friday and Ron Johnson; Kathy Griffith and Jerry Hartley; Lois Becker and Curt Hawkins; Marlene Buess and Steve Howard; Joanne Hansen and Al Pykkonen; Irene Scott and Don Albers.

Marriages here in Nampa this summer included Lura Solts and John Cogdill; Leona Dyer and Bob Harper; Margorie Scurlock and Donovan Olmstead.

Second only to marriage in Cupid's capers are the engagements.

College High School graduates announcing their engagements this summer were Annette Wilda and Don Gould, and Rhodene Sullivan and Dick Ness.

Summer engagements also recently announced were those of Judy Martin and Bob Hughes, Neola Leinweber and Tom Tracy, Thelma Alexander and Ray Hendrix, Lorraine Paul and David Kilemen, and Bonnie Douglas and Elmer Detweiler.

### LARGE CROWD ATTENDS STUDENT-FACULTY RECEPTION AT NNC

Over 360 attended the Student-Faculty Reception held Saturday, September 15, in Morrison Hall.

Guests were greeted by the faculty and served refreshments by a student committee. All major campus organizations had information centers in the dining hall for the benefit of the new students.

Deb Laws, A.S.B. President, served as master of ceremonies. The toast to the faculty was given by Bill Jackson, A.S.B. Vice President. Miss Helen Wilson responded for the faculty. Laws presented Dr. Riley who spoke on "NNC Presents".

### Crowded Facilities Necessitate Housing In Briarwood Hall

With the crowding of campus housing facilities, Briarwood Hall has again been pressed into use as a dormitory. In the beginning the "brick house" served as the home of NNC president Dr. H. Orton Wiley. Down through the years it has seen a parade of residents including faculty members, married students, etc. Once before during

the crowded conditions of the post-war era Briarwood was used as a dormitory. It was then given its name by students under the leadership of Twila Stratton, first dorm president. Once again Briarwood is housing a group of enthusiastic NNC girls under the supervision of Miss Larson.

### New Track Curb Recently Poured

The pouring of a curb for the new track is the latest development in the progress of the new football and track field. The Booster Club, which has been pushing development of this project, was able to see much progress this summer.

Bob Peppley, a freshman, spent most of his summer working on the track. Also spending some summer days working there were Paul and John Finkbeiner. The work was supervised by Bob Dennis, NNC alumnus.

### Sophomore Men Are Victorious

Returning sophomores squeezed by the freshmen 7-6 in the annual softball game played Saturday, September 15. The freshmen made a good start and kept the lead for the first six innings.

In the bottom of the sixth the sophomores scored 3 runs and cut the freshmen lead to two. In the seventh the freshmen, under coach Bill Jackson, threatened, but failed to score. Timely hits and free passes made the seventh inning rally fatal for the freshmen.

### BOYD NAMED CHS ATHLETIC COACH

Don Boyd, NNC Senior, from Olympia, Washington, has been named to succeed Virgil Vail as director of athletics at College High.

Vail has taken new teaching responsibilities and resigned to give more time to new assignments.

Boyd will coach both basketball and baseball.

### BOTANY

By BERTON BRALEY

There should be no monotony  
In studying your botany  
It helps to train  
And spur the brain  
Unless you haven't gotany.

It teaches you, does botany  
To know the plants and spotany  
That grow on earth  
And what they're worth  
And why some spots have notany.

You learn from reading botany  
Of woolly plants and cottony  
And learn just why  
They live and die  
In case you plant or potany.

Your time, if you allotany  
Will teach you how and whatany  
Old plant or tree  
Can do or be  
And that's the use of botany.

## SPORTS

Dave Jackson

### SIX RETURNING 'LETTERMEN' BRIGHTEN GIRLS' TENNIS TEAM

The outlook is bright for this year's girls' tennis team with the return of six of the seven girls forming last year's squad. In addition a number of new girls are already signed up for the team. Among the newcomers is Dorothy Mittleider of Meridian, Idaho, who has had several years' experience in local, regional and state tournaments. Last year Dorothy had the record of nine victories against one defeat in competition with the Idaho Singles Girls' Champion.

Miss Rhodes issues an invitation for anyone who is interested to sign with her before Wednesday, Sept. 26.

### FRESHMEN GIRLS TAKE VICTORY

Showing good hitting and all-around good defense play the newcomers defeated the old students in the annual new-student, old-student girls' softball game. Never falling behind, but several times being threatened by the old-students, the new students this fall accomplished something that seldom happens by winning by a score of 9-7. Mary Waller pitched a well-controlled game for the newcomers by a sharp ball and was given good support by the entire freshman team.

The old-students had difficulty in hitting and also lacked the depth in some positions. Nevertheless, in the final inning the old-students threatened with bases loaded and two outs only to have Waller fan Betty Richardson to end the game.

If the opening contest was any indication of the enthusiasm and play of this year's intramural contest, spectators will see a good brand of girls' ball.

Intramural games start this coming week and all girls are urged to come out and support their respective society teams.

It may be a long way to a goal, but it is never far to the next step toward the goal.

A man who has committed a mistake and doesn't correct it is committing another mistake.

Returning from last year's squad are Shirlene Wallace, Roxie Hull, LaDonna Nafziger, Vi Jahn, Jo Wilcox, and Betty Richardson. Joining these are Lorna Read, Louise Miller, Mary Waller, Muriel Parsons, Barbara Urwin, Joan Ogburn, Lynell Lewis, Sally Whitcauock, Martha Hopkins, and Dorothy Mittleider.

### Coach Accompanies Finkbeiner to Meet

Following the close of school last year Coach Hills and John Finkbeiner went to San Diego for the NAIA track meet. The best track men of the nation were gathered for this meet.

John ran in the 400 meter hurdles and placed fourth. By placing fourth he received a medal which is the first one ever awarded to an NNC track man. Congratulations, John!

On his return trip Coach Hills stopped at the University of California campus for the International Track Clinic. Twenty-nine countries were represented at this clinic.

The American coaches roomed with coaches from other countries. Coach Hills roomed with a coach from Iran. Hills said, "He knew only a very few words in English, but we had a very enjoyable time."

Persons wishing to sign up for intramural tennis and badminton must do so from Monday, September 24, through Thursday, September 27.

### Annual Opening Convention Closes

Annual opening convention services closed Sunday night at College Church.

The Reverend Eugene Stowe brought the messages during the series of meetings. The opening convention will be remembered by many who this week came to know their Maker personally.

Even beginners have fun at —

### SHADY ACRE MINIATURE GOLF

HIGHWAY 30 at ORCHARD

Open from 1 a. m. to 11 p. m.

Phone 6-2297

### John Finkbeiner, NNC Track Star Is College High Football Coach

John Finkbeiner, NNC's outstanding track man, has turned to football. He will head the College High eleven this year.

After losing nine of last year's starting lineup due to graduation, the Trojans got off to a good start last week by defeating the Greenleaf Grizzlies in a practice game, 41-0.

Having six returning lettermen to strengthen the line and backfield, Finkbeiner hopes "To win his share." Coach Finkbeiner will build his line around two returning tackles, Al Lair and Eldon Wilson. Probable starters at guards will be Ron Patterson and Meridith Henry. At center will be two-year letterman John Griffin. Jim Jackson will

be at one end while the other end position is still undecided.

Starting in the backfield as quarterback will be Harold Stoner, and as halfbacks will be Kayo Rhodes and Bill Manley. Rounding out the backfield is senior Bob Cook as fullback.

Others out are Don Coffman, Ron Gustin, Ernie McNaught, Bill Parsons, John Reed, Don Sauer, Jack Whaley, Dean Wilson, Duane Phillips, and Leonard Rose. Lloyd Thompson is out of play at present because of injuries.

### ATTENTION . . .

Start your college career right by turning out for fall track. Fall track is now underway and all former high school track men are urged to turn out. Even if you've had no former track experience turn out anyway. It'll be fun.

Dark clouds are things that pass; the blue heavens always abide.

It takes less time to do a thing right than to explain why you did it wrong.—Henry W. Longfellow.

If you cannot win, make the one ahead break the previous record.—Keene Thrusts.

All great accomplishments have had as their foundation the careful doing of little things called detail. Small things make great things possible.—Anon.

The eagle that flies near the sun is not concerned how it will cross a little stream.

I have just a minute,  
Only sixty seconds in it,  
Forced upon me, can't refuse it.  
Didn't seek it, didn't choose it,  
But it's up to me use it.  
I must suffer if I abuse it;  
Just a tiny, little minute,  
But eternity is in it.  
—Herbert M. Course.
